OUTDOOR ELECTRIC WIRELESS PRO SERIES

The ***Outdoor Electric Wireless Pro*** is a battery-powered, IP33-rated outdoor projection screen featuring a tab-tensioned design for a flat, wrinkle-free viewing surface. Its integrated rechargeable lithium-ion battery eliminates the need for a nearby power outlet, providing flexible installation in outdoor environments. The screen utilizes the CineWhite® 1.1 gain matte white material with a wide viewing angle, delivering bright, vibrant images and consistent picture quality from virtually any seating position.

Screen Material

- CineWhite® 1.1 Gain matte white front projection material
- Wide viewing angle allows the audience to see a clear, bright, uniform picture from any angle
- 4-side black masking borders absorb projector overshoot while enhancing visual contrast
- Black backing eliminates light penetration for enhanced brightness and color saturation to prevent picture degradation
- Tab-tension design provides uniform flatness over the entire projection surface for ripple-free presentations
- ISF Certified for accurate color reproduction
- 5-Year Premium Warranty by Elite ProAV

Design & Installation

- Outdoor-ready design with premium home theater aesthetics
- Combines cinematic image quality with outdoor durability
- Perfect for backyards, patios, pool decks, and recreation room installations
- Black aluminum housing includes sliding wall/ceiling brackets
- Radio Frequency remote included for long range operation
- Built-in rechargeable Li-on battery eliminates the need to plug screen into a power outlet
- Long-lasting battery supports up to 340 up/down cycles per charge
- IP33-rated housing protects against water spray up to 60°
