

SAKER TAB-TENSION PLUS SERIES

The **Saker Tab-Tension Plus** is a commercial grade large-venue electric tab-tensioned projector screen. Its tab-tension design allows the material to have uniform flatness on the entire projection surface to accommodate ultra/short and standard throw projectors. It includes a pair of built-in heavy-duty mounting brackets on each end for a ceiling suspended installation. Control options included consist of a Radio Frequency and Infrared remote, a wireless 5-12 volt projector trigger and a keypad wall switch.

Screen Material

- CineWhite® (matte white) versatile material with 1.1 Gain and 180° wide viewing angle- Front Projection
- 4K/8K Ultra HD, and HDR Ready
- Standard black masking borders enhances perceived contrast and absorbs projector overshoot
- Black backing on material eliminates light penetration
- Tab-tension design permits screen material to maintain flat
- Available in the following diagonal sizes:
 - 180" in 16:9 aspect ratio (CineWhite®)
