

The **AcousticPro UHD** (ultra-high definition) is a moiré-free self-supported acoustically transparent front projection screen material. The dense synthetic weave is compatible with Ultra-High Definition/4K resolutions while mitigating light penetration for a brighter picture. The **AcousticPro UHD** design maximizes sound penetration with minimal attenuation without compromising picture quality. The **AcousticPro UHD** material's wide diffusion uniformity offers a broad viewing angle with superb picture quality across the entire surface. This provides equal brightness levels on or off axis.

## Screen Material

- Gain: 1.0; Viewing Angle: 180° (90°L/R)
- Moiré-free
- Wide diffusion uniformity – maintains luminance levels throughout entire surface
- Mildew Resistant
- 4K UHD, Active 3D, and HDR ready
- Mean Attenuation: -2.36dB
- Flame Retardant: Complies with NFPA 701 Standards

## EliteProAV™ Series: Saker Tab-Tension Series
