

FLOOR RISER PRO DARKUST® 3 SERIES

The **Floor Riser Pro DarkUST® 3** is a portable Ceiling Light Rejecting (CLR®) floor pull-up projector screen for ultra-short throw projectors. It was designed for traveling presentation needs in rooms with overhead lights. The DarkUST® 3 utilizes a sawtooth structure designed to absorb light from overhead sources to combat the washout effect typically experienced with matte white screens. Its traveler-friendly design and ultra-short throw front projection surface is ideal for presentations in which space is limited for a 2-piece projection system.

Screen Material

- DarkUST® 3 Ceiling Ambient Light Rejecting material absorbs up to 85% of overhead lighting to provide contrast-rich images
- Wide viewing angle allows viewers to see a clear and bright uniform picture from any seating position
- Micro-serriform lenticular structure design to properly reflect projector light to viewer's eyes and filter out ceiling lights
- Compatible ONLY with tabletop ultra-short throw projectors
- Project within a short distance without shadowing the picture
- Black backing enhances image brightness
- Top/Bottom black masking borders enhances picture contrast
- Built-in tensioning mechanism keeps projection surface flat
- Available in diagonal sizes 103" and 123" in 16:9 Aspect ratio

Design & Operation

- Easy to transport and set up for on-the-go mobile presentations
- Ideal for environments with high ambient light such as educational/training facilities, hotel rental, and conference rooms.
- Quick and easy height positioning is ensured by an adjustable telescopic support bar.
- Solid rotating floor support feet provide added stability.
- Cups on feet rotate for a leveled installation.
- Integrated carrying handle for enhanced mobility.
- Rugged extruded black aluminum case protects the screen
- Carry bag included for protection, storage, and transportation.
- 5-year manufacturer's warranty
