

MANUAL B PRO SERIES

The *Manual B Pro Series* delivers reliable performance with a manual pull-down design suited for business and commercial use environments. Integrated mounting points allow the screen to be installed on a wall or suspended from the ceiling, giving installers maximum flexibility.

Screen Material

- MaxWhite® 2 front projection matte white material with 1.1 Gain (Not compatible with ultra-short and short throw projectors)
- Wide viewing angle allows the audience to see a clear bright picture regardless of seating position
- 4K Ultra HD, Active 3D, and HDR Ready
- 4-sided black masking borders properly frame the image for professional-grade presentations
- Black backed screen material prevents picture degradation for superior color reproduction
- ISF Certified for accurate color reproduction
- GREENGUARD® and GREENGUARD® Gold Certified

Design & Installation

- Integrated rear end-cap keyholes simplify a quick wall mount installation
- D-rings attached to end caps for suspended ceiling installation
- Reliable retraction mechanism ensures a smooth dependable operation in daily applications
- Auto-locking system provides variable height settings for proper projector alignment
- Pull rope included for easy operation, allowing the screen's pull-down handle to be reached from hard-to-reach areas
- Optional 6" and 12" L brackets available – sold separately
- 5-Year Premium Warranty by Elite ProAV
