

## MANUAL TAB-TENSION PRO SERIES

The **Manual Tab-Tension Pro** by Elite ProAV® is a tab-tensioned manual pull-down projection screen. It has a tab-tension system to keep the screen material flat and taut uniformly. It is offered in a matte white front projection surface for light controlled environments that is compatible with ultra/short/standard-throw projectors. A ceiling/ambient light rejecting option is also available for rooms with minimal light control. The aluminum housing for the Manual Tab-Tension Pro screen is moisture resistant. The screen comes fully assembled and ready to mount.

### Screen Material

- CineWhite® P (For light controlled environments)
- Black backing layer enhances picture contrast
- 180° viewing angle with 0.9 gain
- Superior performance while maintaining true color purity with excellent contrast to display precise presentations.
- ISF Certified for accurate color reproduction
- Wide viewing angle provides a clear, bright, and uniform picture from any angle.
- Available in diagonal sizes 110" and 125" in 16:9 and 100" in 16:10 aspect ratio
