

The **Pro Frame Standard Series** by Elite ProAV™ is the industry leader in fixed frame projection design. It features a robust 3.5" wide frame with velvet coating framing its acclaimed **CineWhite®** screen material. The 1.1 gain projection surface incorporates a new rubber-edge border that makes installation considerably easier and much less time consuming. As an added convenience, an installation kit is included.

The **CineWhite®** (Tension Matte White) has broad light dispersion through diffusion uniformity, black & white contrast and true color rendition making it the most versatile in Elite's tensions screen product lines. This tension PVC surface is the best choice for today's high-contrast ratio projectors in commercial or residential presentations.

Screen Material

- CineWhite® tensioned matte white front projection material
- 1.1 Gain with a wide 180 degree viewing angle
- 4K Ultra HD, Active 3D, and HDR Ready
- Black backing on material for sharper picture and clarity
- Available in the following range of diagonal sizes:
 - 84" - 150" in 16:9 format

Design & Installation

- Permanently tensioned fixed frame projection screen
- Velvet coated 3.5" width frame
- Rubber edge permits fast assembly of screen material to frame
- Split-frame design facilitates lower shipping costs without sacrificing quality
- Easy to assemble and installs in minutes
- Wall brackets allow screen to slide horizontally for properly centered installation
- Installation kit includes: Woods screws & anchors, Wall Brackets, Screwdriver, Mallet
- 5-year manufacturer's warranty
