

PRO FRAME THIN CINEGREY 5D® SERIES

The **Pro Frame Thin CineGrey 5D®** is an EDGE FREE® fixed frame screen that uses Elite ProAV's CineGrey 5D® angular reflective front projection material. The CineGrey 5D® is the perfect solution for rooms that have little or no control over incidental light. This means that it's an ideal fit for family rooms as well as lecture halls, boardrooms, sports bars, training facilities, and other business environments. In addition, the CineGrey 5D® increases projector brightness 1.5 times the amount. This is perfect for low lumens output projectors! Now with an LED back-lighting Kit included for added aesthetics

Screen Material

- CineGrey 5D® 1.5 Gain front projection material rejects Ceiling and Ambient Light (CLR®/ALR)
- Angular reflective technology does not scatter light, instead directs it to viewer to improve image brightness
- Contrast enhancing and superb color saturation provides solid black levels and purity of colors
- Multi-layer with micro particles reflect & absorb off-axis lighting
- ISF Certified for the ability to display accurate colors
- Compatible with Standard "long" throw projectors ONLY
- 4K/8K Ultra HD, and HDR Ready
- GREENGUARD® and GREENGUARD® Gold Certified (UL 2818)
- Available diagonal sizes ranging from 100" - 200" in 16:9 format

Design & Installation

- Aluminum split-frame design is lightweight and is easy to assemble and install
- Material stretches over frame and attaches with springs for a flat and taut uniform projection surface
- EDGE FREE® design maximizes viewing area in a smaller footprint
- Ultra-thin black bezel resembles a flat panel TV display
- Flush wall mount brackets included permit the frame to slide left/right for a properly centered installation
- LED Backlight kit included
- 5-year manufacturer's warranty
