

PRO FRAME THIN DARKUST® SERIES

The **Pro Frame Thin DarkUST®** is Elite ProAV's EDGE FREE® ultra-short throw fixed frame screen. It uses our innovative ceiling/ambient light rejecting DarkUST® material which absorbs up to 95% of overhead light. The DarkUST material has a serriform optical surface structure made specifically to negate the washout effect caused by overhead and other off-axis light sources. This technology allows the material to retain image brightness, color saturation and contrast for great performance. The DarkUST® material is designed for use with ultra-short throw table-top configurations without worrying about shadowing the picture when giving a presentation in front of the screen.

Screen Material

- DarkUST® Ceiling Light Rejecting® material absorbs up to 95% of overhead lighting
- 100x contrast improvement over matte white under ambient light room conditions
- Micro-serriform optical structure filters out ambient light for superior picture quality
- Ultra-wide viewing angle allows viewers to spread out while maintaining uniform picture quality
- Active 3D and 4K/8K Ultra HD Ready
- Black backing eliminates light penetration

Design & Installation

- Sleek EDGE FREE® Fixed Frame resembles a flat panel TV
- Lightweight aluminum split-frame design
- Wraparound design maximizes viewing area and reduces overall footprint
- Ultra-thin black bezel trim
- Project within a short distance without shadowing the picture
- Designed for table-top ultra-short throw projectors
- LED backlighting kit included with remote
- Available in diagonal sizes 100" and 120" in 16:9 aspect ratio
- 5-year premium manufacturer's warranty
