SAKER TAB-TENSION DARKUST® 3 SERIES

The **Saker Tab-Tension DarkUST® 3** is a premium electric motorized Ceiling Light Rejecting (CLR®) projector screen purpose-built for ultra-short-throw (UST) projectors. Designed for environments where space is limited and ambient light is unavoidable. The DarkUST® 3 material combats the washout effect with advanced light-filtering technology that actively absorbs overhead light while preserving deep blacks, vibrant colors, and razor-sharp contrast and delivering stunning image clarity without compromise.

Screen Material

- DarkUST® 3 CLR® material absorbs up to 85% of overhead light
- Designed for use with tabletop/bottom mounted Ultra-Short Throw (UST) projectors ONLY
- Lenticular sawtooth micro-structure filters out ambient light
- Dedicated reflective and absorbent layers maximize projector performance in ambient light room environments
- Enhances black levels and color saturation in bright/dark rooms
- Wide diffusion uniformity allows viewers to see a clear bright picture from any angle
- Black backing prevents picture degradation while enhancing image brightness for sharper presentations
- Available in diagonal sizes 126", 138", 150" in 16:9 Aspect ratio

Design & Operation

- Elegant aluminum white housing is moisture resistant
- Tab-tension design helps keep a flat and taut projection surface
- Ceiling suspended capable using included eyebolts
- Flush wall/ceiling floating brackets included
- Includes handheld IR and RF remote controls, and a wall box controller for manual on-wall operation.
- User-friendly programmable vertical drop position
- Wall box controller is detachable for a clean look
- Built-in selectable channels allow one RF remote programming to control multiple screens and prevent interference
- Wired and wireless 12v trigger feature capable
- 5-year manufacturer's warranty
