

The **Tripod Stage Series** takes the traditional tripod design and enhances it to create a top-notch portable “big screen” presentation that is ideal for small or large venues. The addition of revised features and a professional drape kit refines a traditional concept into a bigger and better solution for modern day hotels, conference rooms or any other large venue presentations. Its dependable design makes it easy to setup/take down in seconds, adjustable telescopic support allows variable height settings as well as variable aspect ratios. The MaxWhite™ front projection material has a 1.1 unity gain with a wide viewing angle. It is also GREENGUARD® (UL 2818) Certified for indoor air quality.

## Screen Material

- MaxWhite™ 1.1 Gain
- Wide diffusion uniformity (viewing angle)
- Active 3D, 4K Ultra HD, and HDR Ready
