

TRIPOD TAB-TENSION PRO SERIES

The **Tripod Tab-Tension Pro Series** is a portable, free-standing, “roll-up” projection screen with enhanced features for high end presentations. The tab-tension reinforced CineWhite® UHD-B front projection material is ISF Certified for reference quality performance. The tab-tension feature creates a flat and taut projection surface that is ripple-free. This is perfect for portable presentations on the go using standard to ultra-short throw (UST) projectors. This versatile solution is ideal for educational sector or business presentations with controlled room lighting. To enhance your presentation’s professional appearance, a drape kit is included for dressing over the tripod stand.

Screen Material

- CineWhite® UHD-B is a 1.3 gain, tensioned matte white front projection material
- Wide diffusion uniformity allows viewers to enjoy a clear bright picture over the full 180° viewing angle
- Compatible with Ultra-short/Short-throw & Standard “long” throw projectors
- ISF Certified for reference accurate color reproduction, contrast and black levels
- 4K/8K Ultra HD and HDR Ready
- Available in diagonal sizes 100” and 110” in 16:9 aspect ratio

Design & Installation

- Black masking borders absorb projector overshoot while enhancing perceived image contrast
- Adjustable keystone eliminator
- Auto-locking mechanism with variable height settings
- Integrated carrying handle for easy transportation
- Variable screen height settings create a variety of aspect ratios
- Black drape kit (skirt) included for enhanced aesthetics
- Standard carrying bag is included for added protection when traveling and in storage
- 5-year manufacturer’s warranty
