

TRIPOD TAB-TENSION PRO CINEGREY 5D®

The **Tripod Tab-Tension Pro CineGrey 5D®** Series is a portable, free-standing, “roll-up” projection screen with enhanced features for high end presentations. The tab-tension reinforced CineGrey 5D® is a 1.5 gain ambient and ceiling light rejecting® (CLR®) projection material that is ISF Certified for reference quality performance. The tab-tension feature creates a flat and taut projection surface that is ripple-free. This versatile solution is ideal for educational sector or business presentations for rooms with minimal controlled lighting.

Screen Material

- Ceiling/Ambient Light Rejecting 1.5 Gain projection material
- Multi-layer matrix uses reflective and absorbent micro-particles eliminate up to 75% of ambient light
- Compatible with Standard “long” throw projectors ONLY
- ISF Certified – D65 color neutrality, superb contrast and dynamic range performance
- 4K Ultra HD, Active 3D, and HDR Ready
- Black masking borders absorb projector overshoot while enhancing perceived image contrast
- Available in diagonal sizes 110” in 16:9 format and 120” in 4:3 aspect ratio
